Will you ever make an artfol account?
Also,,, when you make disabled adopts, can you do one based on neurological conditions? I would love to have a design by you that shares my disability <3

1 year, 28 days ago ()

★ maws

Maybe yeah!! I don't rlly kno how to use artful (sob) and what kind of conditions? I'm tryna Dm figure out how I would display epilepsy in an adopt bc I have it too!

1 year, 28 days ago ()

maws

Maybe yeah!! I don’t rlly kno how to use artful (sob) and what kind of conditions? I’m tryna Dm figure out how I would display epilepsy in an adopt bc I have it too!

1 year, 28 days ago ()

wilt_ed

Haha, no pressure. Artfol can be a learning curve, but it is a nice artist-dominated community <3

I don't have it myself, but I know a few people who have POTS, and use/used mobility aids like walkers and canes.
I myself have FND, better known as conversion disorder, which can have things like walking with a gait or chronic pain, which I'm not sure how you would display that in an adopt either, but worth mentioning hehe. Maybe you could draw them with little medication patterns or stickers on them, I'm not sure! Good luck though
Some other additions you could add could be an

adopt with an ostomy bag. Those are pretty stigmatized from what I've seen, so it would be nice for those people to get some rep! <3

1 year, 28 days ago ()

maws

bet bet!! thank you soso much for the suggestions!! For the chronic pain i bight give them a back hip or leg brace!! leme know if that falls inline with your experiences!

1 year, 28 days ago ()

wilt_ed

Yes! Braces do work. I had ankle braces, but for any joint brace should be good for chronic pain <3

Hi!! I'm still new to ur designs and everything, but when it comes to reselling is there a specific place u prefer the resale to be advertised?? I know I need to go through the form process of transferring but like for instance, my friend also has a journal specifically for people to advertise his resales so he can see stuff taking place. Do you have something like that as well?

Tysm in advance!! I super love your designs I just gotta sell the current one for movin fees so I wanted to make sure I was covering all my bases!!

Hey maws! I was wondering if I could study your style? I really like how you draw body's and eyes, of course I will put my own spin to it, if that's ok with you. I don't want to pass any barriers or fully use your style without permission if that makes sense???

hi! I'd you don't mind telling me, how did you customize your while TH?
TH has dark + light moss by default but your TH is pink and has

a different feel to it!

I've seen this so many times and I've always wanted to do it! since I'm starting to learn code as well

would I look at the HTML codes and go to "create CCS"?
i tried that and it didn't seem to work- I tried using the freebies since I have no money to buy any codes

1 year, 1 month ago ()

Thats probably because you can't use CSS unless you're a premium user.

You can make a transmasc character trans masculine non-binary (regardless of presentation or femininity) and the reverse for transfems but no you cannot swap a ftm to mtf! Still erasure of their intended identity. It's just apart of my wishes when it comes to these things! But if u want some more transfem characters I'll make sure to drop more adopts or!!! Feel free to make any of the cis or non specified fems no or trans

You and your art are amazing. The amount of work you put into each character whether on base or not makes me so happy. You color coordination is on point and the inspo behind ideas always makes inspiring designs. Just watching you and your process of character making inspired me to get back into it myself and push my comfort zones for art. Thank you so much for posting your art and designs and allowing me and people like me to see your WIPs and sketches!
